“ I worked with Dewey at Basler for 17 years. He was a great friend, and engineer, as well as a fellow co-worker. We had many conversations at work both professionally and personally and I always trusted his knowledge and judgement. I considered him a good friend of mine and was saddened to here of his passing. I missed seeing him at work after he retired in 2005. We worked on many projects together and we were always on the same team. He designed the large transformers that I used in the systems that I was responsible for engineering. He will be missed.

“ Martie, this is for you..... I still have such fond memories of being introduced to you and Dewey when you lived in West Allis, WI, and you drove me home from work for awhile. I was only 18, and you were about the same age. I remember when you adopted your two beautiful babies, who are now adults with their own children. I remember Mack & I visiting you after you moved to Springfield, Ill, and I'd relocated to Phoenix. I guess Dewey was near retirement then, but he talked on to Mack about transformers & how they worked. You two were two peas in a pod, and as long as I've known you, we've always kept in touch.....I want you to know how much I've treasured our friendship and your yearly Christmas letters, these 55 years plus. Thank you, and Dewey, for a lovely life-long friendship. xox Mack & Rosalyn Deserano
